Hackensack University Medical Center Foundation

May 27, 2020

We love when young men and women get involved and support their community!

A super special thank you to 15-year-old Suján, son of Dr. Ravi Munver – Vice Chair and Professor of Urology, Chief of Minimally Invasive & Robotic Urology at Hackensack University Medical Center – who has been 3-D printing face shields for our #healthcareheroes. Suján has donated approximately 150 face shields to team members as they continue to care for patients and combat #COVID19. Way to go Suján! We are so #grateful for your time and big-hearted spirit!

"I am extremely humbled to be able to 3D print face shields to help protect physicians and medical staff during this pandemic so that they can continue to stay safe and healthy as they care for patients." – Suján Munver

#wow #thankyou #PPE #communitysupport
